

Sec.1 Foundations and Scope

- Definitions and scope
- Review approach
- Relation to prior surveys

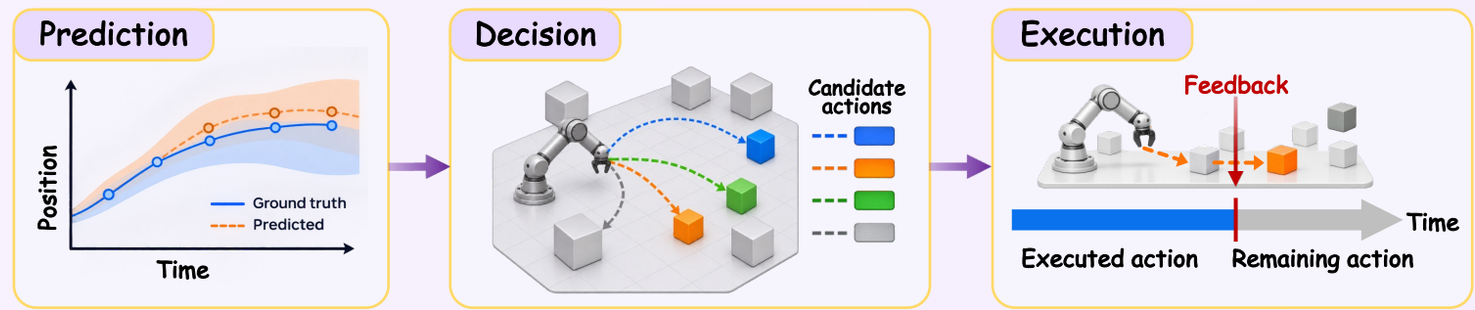

Sec.2 Data, Representations and Models

- Data and supervision
- Predictive representations
- Generalization and transfer

Sec.3 Learning, Planning and Decision Making

- Planning and imagined learning
- World-action interfaces
- Memory and action revision

Sec.4 Evaluation, Reliability and Synthesis

- Prediction quality versus task utility
- Safety and runtime reliability
- Cross-study findings and open questions
